

Seattle City Council District 5

SUMMARY OF QUIZ INPUT

Of Alignvote sessions completed, how are people answering? Here are the answers people are entering, sorted most frequent to least frequent. The "Avg. Importance" column indicates what the average slider-bar movement was. 50 is the default, 100 is highest (extremely important), and 0 is lowest (unimportant).

ⓘ **NOTE: This is NOT a scientific poll, nor is it meant to be represented as one. This is simply cumulative logs of how people are answering.** We do not de-dupe for multiple answers, though we are now logging IP addresses and will be able to filter these to unique IPs in the future. There are numerous ways this may not match the overall sentiment in the district, including but not limited to repeat usage by a single voter, selection bias of those using Alignvote, manipulation or gaming of the survey and more. We do not attempt to compensate for any of those in these numbers.

Question	Total Answers	Avg. Importance
